Met Bhujbal Knowledge city is known for its beautiful campus, infrastructure and sports culture. Campus has modern structure, spaces include digital classrooms, library, laboratories, workshops, gymnasium, turf, music room and amphitheatres. Other amenities include canteen, guesthouse, hostels are also available.

ABOUT INSTITUTE OF D.PHARMACY

MET's Institute of D. Pharmacy has been established in the year 2016. Since its growth, Institute is growing strength to strength keeping in view academics, co-curricular and extra-curricular milestones that is aimed to be achieved in coming years. MET's Institute of D. Pharmacy functions with an emphasize on "Developing a Counselor with a fringe of socio economic awareness rather than a Trader". The Institute functions with a desire of inculcating complete basics of Pharmacy into a budding Pharmacist with an effective blend of theoretical concepts with practical trainings. With holistic approach towards pharmacy education, our students are nurtured in way to develop their technicality as well as soft skills, professionalism and work ethics.

The Infrastructure and facilities are adhered to professional Standards. These include spacious Classrooms with audio-visual aids, well equipped laboratories, advanced computer room with Wi-Fi facility. The Institute is having laboratories equipped with various instruments. The library is having about 6459 volumes covering 626 titles and subscription of various National and International journals. The Institute is having services of highly qualified, experienced, dedicated and motivating faculty members who aim to work on development of future Pharmacists by virtue of their teaching skills, discipline and hard work.

Soft Skills and Personality Development Cell:

It is essential to groom the students from the point of view of recent advancement / trend in Pharmacy profession. Our team works with utmost efforts to build self confidence in the students with respect to communication skills and interview techniques.
